This is a series of videos that provide training on the use and implementation of Turnitin Digital Assessment Suite for students, teachers, and administrators.

Success Stories

Turnitin

turnitin.com/static/customers/index.php

Turnitin serves over 10,000 educational institutions in 126 countries, including leading colleges and universities, high schools, distance learning and middle schools. This website shares some of their success stories, focusing on benefits and impact.

Turnitin Academy Live

Turnitin

community.turnitin.com/?page=academy

The Turnitin Academy Live is a series of highly interactive webinars geared toward taking instructors beyond just plagiarism prevention and toward a powerful pedagogy for 'writing to learn.' Developed and taught by a college professor and Turnitin power user, each one-hour session explores practical elements of using the entire Turnitin solution in the instructional process. There is no cost to participate.

THE BASICS

TURNITIN IN EDUCATION

Turnitin can be used early in the writing process so that students can submit rough drafts and identify early problems with plagiarism or paraphrasing. Teachers can use Turnitin to teach students about academic honesty and improve writing skills. Grademark can be used to track progress over the school year and cut down the time it takes to mark papers.

WHAT IS TURNITIN?

Turnitin (www.turnitin.com) is a comprehensive plagiarism prevention system that allows you to quickly check your students work. Turnitin Digital Assessment Suite includes Gradebook, a flexible online grading system, and Peer Review, an area where students can review each other's work.

HOW DOES IT WORK?

Every paper submitted to Turnitin is checked against a database of current and archived internet content, as well as a comprehensive list of millions of previously submitted student papers. The papers are returned in the form of an originality report that identifies the cause of plagiarism so that educators can address and solve the problem. Teachers, instructors and professors as well as students' peers can also give descriptive feedback to original work.

GETTING STARTED

To request the use of Turnitin, please log onto the website at www.abelearn.ca and select **Tools**. Launch **ABEL Tools** and select **All Tools**. From here select **Turnitin (Digital Assessment Suite)** and click on **Request an Account**. Fill in the text box with your information and press **Submit**.

The Advanced Broadband Enabled Learning (ABEL) program is a proven job-embedded professional learning service that enhances teaching practice and improves student achievement. This is achieved through a research-based approach to building collaborative learning communities, implementing blended learning environments for classrooms, schools and districts, using interactive web-based learning resources, developing sustainable inter-jurisdictional and inter-institutional collaboration and understanding institutional change. For more information about ABEL, please visit www.abelearn.ca.
